**Subject:** Comment on sale of Woods Cross Refinery

I would like to express my displeasure with the Federal Trade Commission in failing to enforce their ruling that all employees of the Phillips Woods Cross Refinery be treated fairly in the sale of the refinery. PhillipsConoco has decided that all of the represented employees (the ones who fight the fires and deal with the emergencies in the middle of the night and on holidays and keep the place running no matter what) will not be allowed to participate in one of the PhillipsYES Benefit plans that has been offered to "all U.S. dollar employees" since 1988. They have stated that management and salaried employees will be allowed to receive four weeks pay for every year of service, up to two years credited service and Social Security make up (all of these to be calculated into an enhanced pension benefit) and the union people will get nothing. And they expect the same focus and good attitude as always from the union employees! I am surprised and shocked that the FTC would be party to this kind of unfairness. Blaine Flinders, Kaysville, UT
